

Native Instruments releases Glaze 2, the ultimate vocal instrument for modern music

Enhance your tracks with instant vocal riffs, talkbox vibes, and rich textures – perfect for pop, hip hop, and R&B productions

Berlin, May 2, 2024 – Native Instruments today released [Glaze 2](#), a next-gen pop and hip-hop vocal instrument that offers lush vocal harmonies, textures, and chord progressions at the touch of a key.

As the follow-up to one of NI's most-loved instruments, Glaze 2 brings modern vocal heat straight to your studio. Now featuring even more voices and the slick sounds of the talkbox, Glaze 2 brings the flair you need to set your tracks apart with smooth vocal pads, and brilliant riffs, runs, and hooks.

Glaze 2 was crafted in collaboration with Curtis 'Sauce' Wilson and Rochad Holiday – engineers behind the sounds of Ne-Yo, Ariana Grande, Will Smith, and Dr

Dre. The samples were recorded with a diverse range of live vocalists, providing a variety of inspiring options for everything from polished pop to edgy hip hop.

With Glaze 2, you can play, twist, and tweak your way to unique vocal vibes that hit just right.

Glaze 2 at a glance

- Pop and hip hop vocal instrument featuring a new talkbox mode and special chord presets for gleaming textures and pads
- Unlock instant, complex harmonies with over 30 custom chord sets and background vocals mapped to keys
- 150 presets with an extensive range of vocal sounds and custom Kontakt effects macros

ABOUT NATIVE INSTRUMENTS

For over 25 years, Native Instruments has been at the forefront of musical innovation. Our technology has revolutionized how people express themselves through sound across the world.

Today, we work to provide everyone with access to the worlds of music production, audio engineering, and DJing. Our portfolio contains industry leading products such as Komplete, Kontakt, Maschine, and Traktor.

In June 2023, iZotope, Brainworx, and Plugin Alliance became part of Native Instruments, further strengthening the breadth of our offerings, the expertise of our team, and the potential to offer our community a streamlined customer experience. With our powers combined, we have engineering capabilities across integrated software and hardware, AI and machine learning, the cloud, and more.

Native Instruments was founded in Berlin in 1996. Today, it has offices in Berlin, Boston, Langenfeld, London, and Shenzhen.
