

A BRIGHTENING STAY AWAITS

Bangkok is a city steeped in intriguing history with unique neighbourhoods to discover. This growing metropolis is known as the "Venice of the East" for its intricate system of canals created centuries ago to support the city's early commerce and transportation. To this day, the historic waterways offer an iconic way for travelers to traverse Bangkok's districts while avoiding the city's infamous traffic. The area known as Pratunam (or Watergate in English) is where Bangkok's most famous canal interchanges, where a short stroll from the central pier leads to vibrant markets, revered shrines, and world-class shopping malls. Pratunam is also home to Amari Bangkok, an established city centre hotel that serves as a place to relax, meet or celebrate people from near and far.

Upon entering the hotel, guests are welcomed by a sleek triple-volume atrium lobby awash with warm earth tones. At its heart, streams of light cascade from an impressive hanging sculpture composed of 847 pieces of individually handcrafted Murano glass components. Titled 'Water of Life', this art installation is reminiscent of falling rain, a nod to the hotel's location at the confluence of the city's most revered canal and the significance of water to Thai culture.
