Major milestones in the growth of BLIK in Poland and abroad

BLIK accelerates its expansion in the euro area

Following pilot programs and the launch of tests in April, Polish users gain access to Slovak e-commerce, and in the next stage the solution will also be made available to customers across the entire eurozone.

BLIK is growing in public services and the mObywatel app

More and more official matters can be paid for via mobile, and BLIK is the most frequently chosen payment method in the ePayments system. Over 566,000 transactions and availability in more than 190 offices highlight its growing scale of use.

BLIK strengthens its position at PGE Narodowy Stadium and grows alongside large-scale events

Full integration with the stadium's infrastructure and intensified partnership activities have driven a clear increase in usage – in 2025, the number of transactions during events rose by 17% year over year.

The 10th edition of the BLIK lottery BLIKOMANIA has launched

The brand continues to run user-engagement initiatives, strengthening BLIK's presence in everyday payments.
