Medicover in Poland – 31 years of experience in healthcare, sport and wellbeing

For 31 years Medicover in Poland has focused on a wide range of health and wellbeing services. The portfolio includes preventive and outpatient care services, specialist healthcare, innovative dental services, advanced in vitro procedures, and wellbeing solutions – including sport and diet-wide offers. Medicover operates medical centres, wide-profile hospitals, pharmacies, fertility clinics, dental centres, optical showrooms, mental health centres, as well as fitness clubs and gyms all over Poland. In addition, we offer sports and recreation packages, as well as a modern, intuitive system for building employee engagement – Medicover Benefits. Medicover in Poland is present in all the regions throughout the country.

Medicover is a leading international healthcare and diagnostic services provider, headquartered in Sweden and listed on Nasdaq Stockholm. Established in 1995 in response to the growing demand for high-quality healthcare-related services in Poland, Medicover subsequently expanded to other countries, fulfilling similar needs. Today, Medicover's largest operations are in Poland, Germany, Romania, India and Ukraine. Medicover provides a broad spectrum of healthcare-related services via an extensive network of ambulatory clinics, hospitals, specialty-care facilities, laboratories, and blood-drawing points through two divisions – Healthcare Services and Diagnostic Services.

Healthcare Services – offers high-quality care based on preventive and outpatient care services, specialist healthcare, fertility treatment, state-of-the-art dental services and optician services as well as wellbeing solutions – including sports packages and diets. Care is offered in 8 countries via 170 medical centres, 43 pharmacies, 41 hospitals, 106 dental centres, 39 optical showrooms, 14 mental health centres, 18 fertility clinics and 189 fitness clubs and gyms. The major markets are Poland and Romania (the transaction of India hospital business divestment is expected to close during the fourth quarter).

Diagnostic Services – offers a broad spectrum of clinical laboratory services including a broad array of laboratory tests in all major clinical pathology areas, ranging from routine to advanced tests and from prevention to monitoring of treatments. The business is conducted through a network of 132 laboratories, 1101 blood-drawing points, one hospital and 34 clinics in 16 countries. The major markets are Germany, Romania, Poland and Ukraine.
